This warranty booklet outlines your warranty policy cover, so please ensure you fully read it carefully and you are clear on which cover option you have as indicated on your warranty certificate. If you have any queries in relation to your policy cover, please contact us at 1890 882 599

Why choose a warranty?

Although reliability has improved significantly over the years, modern vehicles are still made up of thousands of electrical and mechanical parts which can sometimes go wrong. Unfortunately, as your vehicle ages and as its mileage increases, the risk of a potential mechanical or electrical failure also increases.

A warranty gives you peace of mind driving and avoids potentially expensive repair costs.

1. Premium Max Warranty

For vehicles less than 6 years old and less than 100,000kms

Please note there is a maximum claim limit per repair as indicated on your Warranty Certificate.

If you have Premium Max Warranty the following will be covered

Mechanical & Electrical Factory Fitted Components

Today's motor vehicles are increasingly complex in design, made up of thousands of mechanical and electrical parts far too numerous to list individually. In the event of mechanical or electrical sudden failure of a component, the cost of repairing or replacing this component is covered, except those items listed under 'components excluded' on page 5.

Premium Max Warranty also includes the following additional benefits:

Catalytic Convertor & Diesel Particle Filter

These components are covered provided they fail due to sudden unforeseen circumstances. Manual and forced Regeneration as per Manufacturers specification must be attempted first (proof provided) before a claim for repair, reconditioning or replacement unit can be considered. Excludes impact or accidental damage, corrosion, flooding.

Satellite Navigation System & In-Car Entertainment Systems

These items are covered if they are original factory fitted components and fail due to sudden unforeseen circumstances. Excludes accidental damage, cracked screens, fluid ingress, food ingress.

Unlimited Kilometres

There is NO limit on the amount of kilometers during your period of warranty cover, but you do have to keep your vehicle serviced in accordance with the manufacturers service intervals for that vehicle. Proof of documented service records may be requested in the event of a claim.

European Warranty Cover

This Policy will cover Your Vehicle for personal trips while it is outside the Island of Ireland in Europe for up to 60 days in total during the Period of Insurance. If Your Vehicle has a mechanical or electrical failure in any country, which is a member of the European Union or EFTA (European Free Trade Association).

Diagnostics

In order for a repairer to work out exactly what is wrong with a vehicle, they normally carry out diagnostics to identify the fault. If the fault results in a valid claim under your warranty policy then the diagnostic costs will automatically be covered up to a maximum of €75 (plus VAT).

Vehicle Hire

If the repair time for a valid claim exceeds 8 hours, according to the Institute of Consulting Motor Engineers repair time schedules, you can claim up to 7 days vehicle hire at €30 (plus VAT) per day once you have obtained prior approval from the MAPFRE Warranty Claims Team. NOTE: repair time does not include delays in commencing the repair for any reason.

Transfer of Warranty

If you decide to sell your vehicle to another private owner you can transfer your unexpired portion of the warranty to them, (subject to Terms & Conditions) which may improve your chances of selling your vehicle more quickly. There is NO charge for this transfer but you must contact the MAPFRE Administrator with the new private owner's details.

The following components are EXCLUDED from Premium Max Warranty:

Body/paintwork, exterior & interior trim, water ingress or leaks, door handles, check straps, glass, mirrors, seating frames & runners, lamps, light fittings, wiring, wiring looms, airbag & seatbelt systems, key blades, cards, fobs.
